Corsair Mac Memory SO-DDR3L

✓ Delivery time: 2- 4 days

CHF **41.58**

CHF **44.95** incl.

Corsair Mac Memory SO-DDR3L 8GB 1600MHz, Arbeitsspeicher Bauform: SO-DIMM, Arbeitsspeicher-Typ: DDR3L, Arbeitsspeicher Geschwindigkeit: 1600 MHz, Arbeitsspeicher Pins: 204, Fehlerkorrektur: Non-ECC, Anzahl Speichermodule Kit: 1, Speicherkapazität pro Modul: 8 GB

Manufacturer	Corsair
EAN	0843591032940
Manufacturer#	CMSA8GX3M1A1600C11

Description

Mac Pro users demand the highest performance from their systems, especially when working with digital media applications. Corsair's Mac Memory is specifically designed for rock-solid stability in demanding digital media rich environments. Corsair Mac Memory allows users to maximize memory capacity and throughput to increase their systems performance. Mac Memory modules are Fully-Buffered DIMMs, or FB-DIMMs, which are different than the typical memory running in standard PCs. In an FB-DIMM module, the memory controller does not write directly to the memory module, but to a buffer, which then writes to the module. This buffer, the Advanced Memory Buffer (AMB) can also provide built-in error checking and correction. Built to Corsair's legendary quality and reliability standards, Mac Memory FB-DIMM modules are fully tested to ensure maximum compatibility and performance in Apple Mac Pro products. Adding system memory is one of the most effective ways to improve overall performance and Corsair's Mac Memory offers a full line of choices for upgrading your specific Mac Pro platform. FB-DIMMs require two identical modules to be installed at once for proper operation.

Specification

Product	CORSAIR Mac Memory - DDR3 - module - 8 GB - SO-DIMM 204-pin - 1600 MHz / PC3-
Description	12800 - unbuffered

Product Type	Memory module
Capacity	8 GB
Memory Type	DDR3 SDRAM - SO-DIMM 204-pin
Upgrade Type	System specific
Data Integrity Check	Non-ECC
Speed	1600 MHz (PC3-12800)
Latency Timings	CL11 (11-11-11-30)
Features	Unbuffered
Voltage	1.35 V
Manufacturer Warranty	Limited lifetime warranty

Techn. Details

Capacity	8 GB
Upgrade Type	System specific
Type	DRAM memory module
Technology	DDR3 SDRAM
Form Factor	SO-DIMM 204-pin
Speed	1600 MHz (PC3-12800)
Latency Timings	CL11 (11-11-11-30)
Data Integrity Check	Non-ECC
Features	Unbuffered
Voltage	1.35 V
Compatible Slots	1 x memory - SO-DIMM 204-pin
Service & Support	Limited lifetime warranty
