Description

This DisplayPort switch by DeLock can be used to connect to a high-resolution 8K monitor with two DisplayPort inputs. The two inputs can be switched between two connected PCs. Alternatively, two 4K monitors can be shared between two connected computers. The button on the device or the remote control can be used to switch between the DisplayPort devices. The output is dual-mode capable (DP++), so that an HDMI or DVI monitor can be connected with a suitable adapter.
