Microsoft Project Open Value Inkl.SA, Kundenart: Unternehmen, Lizenzdauer: 1 J.

Manufacturer	Microsoft
EAN	4039407021208
Manufacturer#	076-03395

Description

Microsoft Project helps you manage schedules and resources, collaborate on projects, and analyze project information. Microsoft Project has grown to be the world's most popular project management software. Microsoft Project's installed base includes a wide variety of user types, ranging from general-knowledge workers to expert project managers. Microsoft Project provides knowledge workers with the flexibility to collaboratively plan and track projects and deliver the results their business demands. It is the single planning tool needed in an organization. MICROSOFT OPEN VALUE Microsoft Open Value is a premium volume licensing offer available under the Open License family. Designed for organizations with as few as five computers, Open Value offers simpler license tracking, greater control over the software upgrade cycle, and better software cost management. Microsoft Open Value offers many benefits: Track licenses more easily. Open Value provides a single agreement to track all licenses on all your desktops, run the same software version on all your PCs, upgrade to the next version at any time, or run a mix of software versions without having to track what is deployed on each desktop. Gain control of your upgrade cycle. Open Value grants you the rights to run any version of the licensed software and to upgrade at any time, when it is most convenient for you. Budget more effectively and save money. Open Value offers predictable annual payments, so you can make better informed decisions about what IT projects need to happen each year. In addition, volume pricing helps stretch software budgets further than retail purchase options. Spread payments. Open Value lets you spread your software costs over three annual payments so you can more effectively manage your software budget and get the software you need now. SOFTWARE ASSURANCE Microsoft's Software Assurance gives you automatic access to new technology and provides productivity benefits,

support, tools, and training to help deploy and use software efficiently. With Software Assurance, you receive access to new versions of licensed software released during the term of your agreement to deploy at your own pace. New Version Rights simplifies the procurement process and shortens the business process cycle, allowing you to reduce the costs associated with acquiring new version releases and immediately take advantage of the latest technology.

Specification

Product Description	Microsoft Project - licence & software assurance - 1 PC
Product Type	Licence & software assurance
Category	Office applications - projects / process
Licence Qty	1 PC
Licence Pricing	Volume
Licensing Program	Microsoft Open Value
Licensing Details	Additional product, 1 Year Acquired Year 1
Platform	Windows
Language	English
Service & Support	New releases update
